

Abbey Business Interiors achieves B Corp Certification

reinforcing commitment to people, planet and purpose

FOR IMMEDIATE RELEASE – 29/09/2026

Abbey Business Interiors, a leading provider of workplace, hospitality, education and commercial interior solutions across the UK, is proud to announce that it has achieved B Corp Certification, joining a global community of businesses that meet high standards of social and environmental performance, accountability, and transparency.

The certification recognises Abbey Business Interiors' ongoing commitment to conducting business responsibly while creating positive outcomes for clients, employees, suppliers, communities, and the environment.

"Achieving B Corp Certification is one of the most important milestones in Abbey Business Interiors' history. It reflects our belief that business should be a force for good and demonstrates that success is about much more than financial performance alone."

For over 30 years, we have built our reputation on trust, integrity, and delivering exceptional outcomes for our clients. B Corp certification independently validates the standards we hold ourselves to every day, from how we support our people and communities to how we minimise our environmental impact and work responsibly with our supply chain.

As our business continues to grow, this certification strengthens our commitment to creating workplaces that not only perform brilliantly for our clients but also contribute positively to society and the planet. We are proud to be part of a global movement of organisations redefining what success in business looks like."

David Giles,

Managing Director, Abbey Business Interiors

B Corp Certification is awarded to organisations that meet rigorous standards across governance, employee wellbeing, environmental stewardship, community engagement, and customer impact. The assessment process evaluates how a company creates value beyond profit and embeds responsible business practices throughout its operations.

Abbey Business Interiors has implemented a range of initiatives that support its sustainability and social value objectives, including:

- Supporting local communities through charitable and volunteering activities.
- Promoting responsible procurement and supplier engagement.
- Reducing environmental impact through sustainable product selection and waste reduction initiatives.
- Encouraging employee development, wellbeing, and inclusivity.
- Working with clients to deliver sustainable workplace and interior solutions.

The certification further strengthens Abbey Business Interiors' position as a trusted partner for organisations seeking suppliers that align with Environmental, Social and Governance (ESG) objectives and social value commitments.
